### Letter of Recommendation for Randall Munson

We needed an exceptional keynote speaker for our international conference and Randall Munson delivered the exceptional presentation we needed.

TTG Asia Media Pte Ltd was privileged to have Randall Munson as our keynote speaker at the Doublebill event at the IMPACT Convention Center in Thailand. This was the first-ever international event combining both the MICE (Meetings, Incentives, Conventions & Exhibitions) and corporate travel industries.

Randall delivered "Success Through Creativity & Innovation" to more than 1,000 delighted delegates from around the world.

Feedback from the delegates was overwhelmingly positive. It is clear that they appreciate the investment we made in bringing Randall's program to them. His energetic delivery incorporated humor, magic and audience participation. Randall positively engaged and entertained the audience and, more importantly, he understood us and effectively communicated innovative techniques that we can immediately apply to boost our creativity and increase our success. Randall inspired and motivated us.

One of our delegates may have said it best: There are only a few speakers in the world that can create this kind of excitement.

We enthusiastically recommend Randall Munson to any organisation. You can absolutely count on Randall to deliver the standard of excellence expected at a world-class conference.

Phila Anne Tan  
Manager (Exhibitions/Events)
